

### Chess School

Chess can enhance critical thinking skills, memory, recognition of patterns, logic, awareness and analysis. Classes follow the curriculum developed by National Master Elliott Neff, from basic to advanced topics through the six levels of Pawn, Knight, Bishop, Rook, Queen and finally King. Each class involves a review of previous material, the introduction of new material and opportunities to practice what has been taught. A \$35 skills assessment test is required prior to beginning Chess School. **To register** and for more information contact Chess4Life at [www.chess4life.com](http://www.chess4life.com) or call 425-283-0549.

### Can Do Kidz

Kids will develop basic skills that you and I take for granted. Many of them, like tying shoes, buttoning a shirt, throwing a ball, or getting along with others, require patience, time and practice. Through creative play and social interaction children learn to problem solve and become more self-reliant building confidence and self-esteem. Be prepared, more than likely you will start hearing, "I can do that!" No Class Nov. 26.
